

Product Details

Model Number	TSK-L9FC5
Material	Shield: Polycarbonate Bracket: Nylon
Color	Shield: Shade 5 Cobalt Blue Bracket: Blue
Size	11 x 19 x 0.090"
Weight	0.85 lbs.
Specification	ANSI Z87.1+
Bracket Type	Weight-Compensating
Hardhat Compatibility	Slotted Cap Hardhat
Shape	Toric
Description	Injection molded shade 5 cobalt blue nanoparticle face shield with weight-compensating slotted cap bracket for gas cutting & welding applications.
Competitive Advantages	• Toric shape for improved visibility, durability and protection. • Low profile design conforms to the worker's face, with a compact fit while above the head in the stowed position. • Polycarbonate material performs excellent against both high impact and high temperature applications. • Nanoparticle formulation for a more robust & longer-lasting shield. • Weight-compensating bracket reduces the weight imbalance felt while shield is above the head in the stowed position. • Integrated transparent chin protector for excellent downward vision & protection from hazards from below. • LeverLock® attachment system for easy shield replacement. • Press-to-release slotted adapters for easy bracket removal. • Shade 5 cobalt blue tint meets the UV, Visible and IR transmittance requirements of ANSI Z87.1 and is excellent for filtering the bright yellow "sodium line" that develops in molten metal slag.
Country of Origin	USA
CA Prop. 65 Warning	This item can expose you to chemicals including Methylene Chloride, which is known to the State of California to cause cancer, and Bisphenol A (BPA), which is known to the State of California to cause birth defects. 
Note	Hardhat not included.
