

Arc Balaclava

Model ARC-BALA-LE

Product Data Sheet

Low energy, double layered balaclava with open face design.

Product Details	
Product Name	ARC-BALA-LE
Material	55% Carbon, 45% Kevlar
Color	Green blend
Product Weight	0.53 lbs.
Specification	NFPA 70E, ASTM 1506, OSHA 29 CFR 1910.269
Description	Low energy open face design balaclava with one large eye port. Double layer Carbon/Kevlar blend fabric is to be worn tucked in to your approve arc shirt or jacket.
Competitive Advantage	The arc balaclava used in combination with approved goggles and helmet provides an alternative to the use of beekeeper style arc hoods up to 12 cal/cm ² . Soft double layer material and one large eye port make it comfortable for the wearer.
Applications	This arc balaclava is used in association with dielectric head protection and accessories to provide protection from the hazards of arc flash. Arc flash is a defined hazard by NFPA-70E.
Comments	See the videos on Paulson's arc flash products at: http://www.paulsonmfg.com/videos.php Do not use an arc balaclava for electric arc welding exposures.
