

Injection molded 4" gold on medium green hard-coated replacement flip-front shield.

| Product Details              |   |
|------------------------------|---|
| <b>Product Name</b>          | QVGHCFM-4   |
| <b>Material</b>              | Polycarbonate   |
| <b>Color</b>                 | Gold-on-Medium Green  |
| <b>Product Weight</b>        | 0.15 lbs.   |
| <b>Specification</b>         | ANSI.Z87.1+   |
| <b>Description</b>           | Injection molded 4" gold on medium green hard-coated replacement flip-front shield.   |
| <b>Competitive Advantage</b> | Optimizes visibility by allowing for a clear view for certain applications and a gold-coated view for furnace and other high heat applications. Since the shield is injection-molded to shape, it features improved optical & physical characteristics. The formed shape also improves comfort & safety considerations. The polycarbonate material performs excellent against both high impact and high temperature applications. Premium gold coating reflects radiant heat and visible/infrared light. Hard coating on the exterior extends service life of the shield. |
| <b>Applications</b>          | Furnace operations: Pouring, casting, hot dipping. Impact: Chipping, grinding, machining, masonry work, riveting, & sanding. Glare.   |
